In my posts, is file, I'm using save, but it's giving me an error. "Error: Network Error: Resource could not be found. ... (1201): Backend "countries" does not exist". I have 3 objects within the same document. They are all unique, and obviously I'd like to have a json response from Parse.com that looks something like this. { "type": "POSTS", "post_1": { "user": "user1", "text": "text1", 1cb139a0ed
