Do not buy this unless you are desperate for a rugged design. This laptop is basically a cheap whitebox with an old and weak processor. The processor and memory just can't keep up. The screen has eye strain issues. Good if you don't care about eye strain. The keyboard is a joke. Weak and sticky. I built this laptop 4 years ago. As of now the motherboard is good. I have no idea why the MSI website is broken. Their support is NOT helpful.
