SphinxIQ is a Windows only Windows System Requirements.Love the Military, Hate the War Voting is the way we register our opinion. It is a method of dialogue between citizens and politicians. In the coming November presidential election, millions of votes from members of the military will make up a very important part of the voting pattern. The majority of these people will vote against any candidate whose policies are similar to the position of the war-mongers, while the minority will vote for any candidate who would open up our borders, stop the bombing of civilians, and end the imprisonment of American citizens. The nation that caused the martyrs to be killed in Iraq, Afghanistan, Pakistan, Sudan, Somalia, Syria, Libya, and Yemen will be punished by God and its own citizens. We the people have a moral duty to make sure our elected officials act on behalf of the American people and stop the bloodshed.
