Using OpenGL, AutoCAD can be used for interactive rendering and animation, and can render views from AutoCAD's own DXF or DWG (or PDF) files, CAD files stored in an ADOC (Autodesk Office Document) file format, or CAD files stored in a DWF (AutoCAD Drawings) format, or in a DXF. CAD files are used for geometry, and also for symbology (colors, fonts, etc.). CAD drawings can be used to represent technical drawings, and CAD files can be used to support the visualization of 3D geometry in AutoCAD.
