The Elden Ring already looks really good for a 2009 game, and if the graphical quality stays as high as it is now, then the game will definitely be an excellent MMORPG for the next few years."

Best RPG Game 2013 9/10 - IGN.com "A fantastic game that is filled with interesting and large-scale quest lines, including many different flavors of 'cyberpunk' that make the gameplay so unique and interesting. There are still issues with the game itself, but they are far less compelling and serious than other MMOs with a free-to-play business model."  
Best RPG Game 2012 9/10 - IGN.com "While it will never be the be-all end-all of the genre, in its own right its an amazing game. The animations and graphics are excellent, the story and quests a lot of fun, and the character customization and freedom is so complete it would never feel like a cookie-cutter product. If you've got some friends and are looking for a new MMO, make sure you check out The Elden Ring."

1. Weapons, Magic, and Armor 1.1 Weapon Styles Each class has a wide range of weapons at its disposal. For example, among the swordsmen there are those who cut their enemies with an axe and those who sweep with a blade. Due to the complicated array of equipment that can be equipped, class-specific weapons are required. 1.2 Magic The Swordsman can use his well-balanced sword in close combat, which can be upgraded using skill point obtained by defeating enemies. The Shadow Knight using his sword to slash and the Knight using his hammer to attack are examples of class-specific weapons. However, in contrast to the versatile sword, most of the magic attacks do not have as powerful as the weapons, but are capable of dealing great damage. In addition, some skills are able to equip magic weapons called enhancement magic. 1.3 Armor If you are surrounded by enemies, you can use the heavy armor and shield to move away from them. However, if you want to cut down your enemies quickly, you need to equip high-end weapons. 2. Classes 2.1 Knight 2.1.1 Blademaster There is nothing more prestigious than the Knight. They use finely-crafted silver weapons. An expert with the sword, they are in the vanguard of battle and there is no Knight more feared than the Blademaster. 2.1.2 Defender The sword and shield are a powerful combination. Strong and quick, the Defender fights in large numbers to defend their allies. 2.2 Shadow Knight 2.2.1 Elucidator The Blademaster's mentor and master, the Elucidator can see the shadows and attacks with exact

timing. Their magic attacks are fatal to enemies. They are feared by all because they attack without delay. 2.2.2 Archer The class that is master over numbers, the Archer can switch to any weapon or magic during battle. It is only the Archer who can be called upon to attack from afar. 2.3 Warlord 2.3.1 Warlord The ancient class that began the era of the Fantasy Action RPG. The Warlord, with its powerful skills and swords, is a class that is loved for its strategy and simplicity. The warlord, which can take two types of swords, makes a powerful club that is a distant parallel to a giant punch.
