NOTE Download this game for ver PC (windows, Mac):Dragon Ball Raging Blast 2: The second game in this high-flying, fast-hitting, and intense versus battles series, Dragon Ball: Raging Blast 2 promises over 90 characters from the massively popular anime franchise. Dragon Ball Z fans can rest assured that the destructible environment, and character trademark attacks and transformations will be true to the series. These include signature Pursuit Attacks which enable players to initiate attack combo strings, juggling your opponent in a string of devastating strikes throughout the environment. Additionally, Dragon Ball: Raging Blast 2 sports the new Raging Soul System which enables characters to reach a special state, increasing their combat abilities to the ultimate level. Featuring more

than 90 characters, 20 of which are brand new to the Raging Blast series, new modes, and additional environmental effects, Dragon Ball: Raging Blast 2 is the next evolution in the home console series. Dragon Ball Raging Blast 2 has 50 levels (25 mission per level) in single player mode. You'll face the strongest enemies (cooled down), the bosses, and more with a total of 40 different characters. There is also a multiplayer mode for three players (two players VS 1) and another interesting thing is that the level of difficulty rises from level to level. In fact, the bosses are more difficult, you will face them in high difficulty levels. You can also add your opponents in the battle at the beginning of the mission. With DragonBall Raging Blast 2 you won't only face all the official characters but also the deadliest enemies: The heads of the Freezer. They will be characters that will bring you back all the missions and will be the last thing you see before the game gives up on you. What is cooler, the names of the characters or the graphics? It's hard to decide. Some characters have the same names than the movies, others have been changed and now they are a little more

badass than before... It's incredible.

Dragon Ball Raging Blast 2 was received extremely negatively by the Japanese video game industry, as it sold only 12,000 copies at that time of its release. Critics described the game as "unremarkable" due to its focus on transforming characters, repetitive gameplay, bad combat physics and general sluggishness. In October 2010, an online petition was started at the website of the Japanese mobile phone application provider game company "DMM", in order to stop the developers from making a sequel to the game. After the comment made by Yoshinori Terasawa that no sequel would be made, the petition ended. Characters are listed in the order of the original Dragon Ball series. The Cross Battle System for the characters is based on the original series as well, and the pairing of characters is the same: (Beerus. Bardock) vs. (Krillin. Gotenks), (Vegeta. Nappa) vs. (Goku. Vegeta). Other character switches in Dragon Ball Raging Blast 2 have been listed in this article. Dragon Ball Raging

Blast 2 added the Ultra Instinct, which enables the player to enhance the character in five areas at once, and also has the option to play with three other characters instead of the default setup of one per character. The new Feature shows all enemies that are close, as well as their tactics. Dragon Ball: Raging Blast 2 is essentially a game that has a lot of Dragon Ball Z characters fighting each other. In the game, your goal is to move from one end of the arena to the other, beating your opponents along the way. There are different techniques you can use while fighting, such as running, kicking, jump attacks, etc. Defeating any of your opponents will net you points, and every fight has a different number of hits, depending on how hard the opponent is. As you defeat more opponents, you can try to purchase items that will give you an advantage, or will let you gain your energy back. All of your battles have four stages; a tutorial, an opening stage, a mid-battle stage, and finally the ending stage.
