What's New in the HTML-View?

A simple to use program that makes it easier to browse the WWW with MS Internet Explorer. HTML-View is a file browser that let you browse and open HTML, GIF, JPEG, and TXT files. HTML-View is an easy to use application that lets you view WWW file formats (HTML, GIF, JPEG), ActiveX documents and text files (TXT). Here are some key features of "HTML View": - convenient file browser - file operations: copy, move, rename, delete - quick file and folder bookmarks - 'RunWith' menu for launch external programs - search in files and in current HTML documents - viewing all file formats that are supported by MS Internet Explorer - accepts file name as a command line parameter to run from your file manager - automatic registration on.html,.gif,.jpeg extensions - offline mode with IE 4 or later - simple installation, no changes in your Windows registry, no additional files in your Windows folders; to uninstall program, just delete HTML-View files Q: How to recursively loop through JSON string and

get the value of an object from a key? I'm trying to parse a JSON String to get the values of an object from a key. I tried using this code: var json = '{"objects":{"111":{"type":"not_here","id":"1"},"12":{"type":"not_here","id":"2"},"333":{"type":"not_here","id":"3"},"4444":{"type":"not_here","id":"4"},"55555":{"type":"not_here","id":"5"},"666666":{"type":"not_here","id":"6"}}}'; $.getJSON(json, function(json_data) { console.log(json_data.objects); }); The output will be: Object {111: Object, 12: Object, 333: Object, 4444: Object, 5555: Object, 6666: Object} The objects has the keys "type" and "id" and I want to get the values of "id". The output I want is the id number of each object. A: You can parse the json string by JSON.parse(). var json = '{"objects":{"111":{"type":"not_here","id":"1"},"12":{"type":"not_here","id":"2"},"333":{"type":"not_here","id":"3"},"4444":{"type":"not_here","id":"4"},"55555":{"type":"not_here","id":"5"},"666666":{"type":"not_here","id":"6"}}}'; var obj = JSON.parse(json); var ids = [];
