## **What's New in the RDP Tray?**

NDPI Remote Desktop 2.0 provides the .NET Framework 2.0 component necessary to access a remote session over a network. The .NET Framework 2.0 is not installed by default. To install the .NET

Framework 2.0, refer to the following URL: We recommend installing .NET Framework 2.0 before installing NDRDE2.0. New in NDRDE2.0: - Search box with autocomplete and history - Supports "Open source" (vista/7) - Ctrl+Z doesn't undo the last action - Ctrl+Tab can be used to switch between panes - Mouse wheel (ctrl) to zoom in/out - Mouse wheel (alt) to scroll up/down - Right click to open the context menu - Password protection (with "add password") - New icons Note: If you use the

"open source" (vista/7) style icons, you must use the .NET Framework 2.0 instead of the .NET Framework 4.0 for the most recent version of NDRDE2.0 (2.5) Download You can download the latest version of the program from [here](#) or you can use the installation wizard [here](#). In order to use our freeware, you must agree to the terms of the license agreement. [ReadMe Here](#) you will find the License Agreement that you must read and agree with before you use the program. Changelog  
2015-09-21 Add icon theme support.

The icons can be found in the  
"changelog.1.0.ico" 2015-09-15  
Remove the "NDPI" in the  
application name 2015-09-02 Add  
the option to install NDRDE2.0 into  
the Program Files folder. (Default:  
C:\Program Files (x86)) 1.0.1 Bug  
fix: Check if the user has  
administrator privileges in order to  
set the new default icon theme 1.0  
Bug fix: Fix the connection problems  
when some computers have the  
wrong port (e.g.: "53" for another  
port) 2009-07-24 Bug fix: Add the  
new.NET framework. (Not all

computers have it) 2009-07-22 Bug fix: Set the correct icon (under.NET Framework) 2009-07-21 Changed the installation path to the Program Files folder. Added new icons.

Added the ability to specify a default icon theme. 1.0.0 Added support for Windows 7. 2008-09-02 Added a "search box with autocomplete"

## System Requirements For RDP Tray:

The Steam client and an internet connection are all you need to play. Spectate! Let your friends know how great it is to play on Linux! What is Spectator? It's a feature in Unreal Tournament III that allows you to watch a match in progress while you play. What can you watch? - Camera Movement - What happened (kill cam) - Enemy View - Your Own View - Arena View Why would you want to do that? You
