Step #1: A popular way of getting lots of free backlinks is by

buying them from PBN (page-building-network) services. Using PBN services is risky, as the quality of the backlinks is low, and the backlinks can disappear at any time. Step #2: Instead of buying links, we're going to create them ourselves. The process is very simple. Step #3: We'll use a proxy to hide our IP address and create pages that point to our domain. This approach can be used for creating a large number of quality backlinks. The main advantage over buying links is the fact that they won't disappear any time. Step #4: The last step is to do the Page build with a special content and redirect the traffic to the domain of your choice. We're going to use the following tools to create our free backlinks: Proxy-dns Nginx Spiders NeoRouter Hidden IP We will create our free backlinks using the following approach: Step #1: A popular way of getting lots of free backlinks is by buying them from PBN (page-building-network) services.
